

CANCER PREVENTION & RESEARCH  
INSTITUTE OF TEXAS

# Research Program RFAs 2018

November 14, 2017

# Priorities 2018

## Principles

- Scientific excellence and impact on cancer
- Targeting underfunded areas
- Increasing the life sciences infrastructure

## Research Program Priorities

- Recruitment of outstanding cancer researchers to Texas
- Investment in core facilities
- A broad range of innovative, investigator-initiated research projects
- Childhood cancers
- Prevention and early detection
- Computational biology and analytic methods
- Population disparities and cancers of importance in Texas (emphasis on liver cancer)

# Funding Mechanism Success Rates FY17

| Funding Mechanism                         | Applications Received | Applications Awarded | Success Rates |
|---|-----------------------|----------------------|---------------|
| • Individual Investigator Research (IIRA) | 292                   | 26                   | 9%            |
| • IIRA Cancer in Children                 | 45                    | 7                    | 16%           |
| • IIRA Computational Biology              | 44                    | 3                    | 7%            |
| • IIRA Prevention and Early Detection     | 35                    | 5                    | 14%           |
| • Core Facilities Support                 | 30                    | 11                   | 37%           |
| • High-Impact/High Risk                   | 143                   | 19                   | 13%           |
| • Early Translational Research            | 54                    | 7                    | 13%           |
| • Research Training                       | 9                     | 5                    | 56%           |
| <b>Total</b>                              | <b>652</b>            | <b>83</b>            | <b>13%</b>    |

# Research Program RFAs – 18.1

---

- 18.1 RFAs
  - Investigator Initiated Research (IIRA)
  - IIRA Cancer in Children
  - IIRA Computational Biology
  - IIRA Prevention and Early Detection
  - IIRA Clinical Translation
  
- 18.1 Review cycle
  - Initial triage (August-September 2017)
  - Full panel review (October 2017)
  - Scientific Review Council (November 2017)
  - CPRIT Program Integration Committee (February 2018)
  - Oversight Committee Award (February 2018)

# Research Program RFAs – 18.2

---

- 18.2 RFAs
  - Core Facility Support Awards
  - High-Impact/High Risk Awards
  - Multiple Investigator Research Awards
  
- 18.2 Review cycle
  - Application receipt (through January 2018)
  - Full panel review (May 2018)
  - Scientific Review Council (June 2018)
  - CPRIT Program Integration Committee (July 2018)
  - Oversight Committee Award (August 2018)

# Research Program RFAs – 19.1

---

- 19.1 RFAs
  - Investigator Initiated Research (IIRA)
  - IIRA Cancer in Children
  - IIRA Computational Biology
  - IIRA Prevention and Early Detection
  - IIRA Clinical Translation
  
- 19.1 Review cycle
  - RFAs announced (January 2018)
  - CARS receipt dates (March 7 – June 6, 2018)
  - Panel reviews (October 2018)
  - Oversight Committee Award (February 2019)
